CORTEK COPS32 300/500WATT POWER SUPPLY

DESCRIPTION

COPS32 is the most performing entry level power supply of the new Cortek 2018-2019 serie.

The combined power declared is of 300watt and in our laboratory tests has reached, with voltage within the parameters ATX, the combined power of 500watt thanks also to a housing of 16cm and a fan of 13cm.

Although this is an economic power supply, it also has an excellent performance, showing 85% efficiency at 50% load (150watt).

It is therefore also suitable to drive video cards of good power remaining within good consumption.

The cable includes: 20 + 4PIN, P4 + P4, 3xMolex, 3xSATA, 1xPCI-E 6 + 2.

EXTERNAL PAINTING	Black
NET WEIGHT	1323gr (with cables)
HOUSING	16 cm
COOLING FAN	13 cm
INCLUDED CABLES	20+4PIN, P4+P4, 3Molex+1Floppy, 3SATA, 1xPCI-E 6+2
DECLARED POWER	300WATT
MAX VERIFIED POWER	500WATT
EFFICIENCY AT 50% (150WATT)	85%
