CORTEK GAMING PLUNGER KEYBOARD GK1
CORTEK GK1

DESCRIPTION

The Cortek GK1 is a suspended keyboard with white switches, and backlit and with backlit letters in 7 colors. The keyboard has Multimedia and Gaming functions. There are 12 functions for Windows and Multimedia on the F1..F12 keys. There are functions to disable Windows keys, swap WASD with cursors, select 3 repetition rates. The keyboard is optimized for anti-ghost. The GK1 is a high quality keyboard: it is a membrane, but with pistons like mechanical keyboards, for this reason it has a mechanical-like touch, it is also waterproof and has a reinforced steel structure. A kit with extractor and 8 orange keys for night vision is also included.
