DESCRIPTION

The Gammec XCommand is a backlit gaming keyboard with backlit letters in 7 colors.

The internal memory and the 5 Gaming Macro keys + 1 rec button on the fly, allow you to program the keyboard in real time with the desired macros and recordings without having to load software and / or exit the game.

It also has 8 keys dedicated to Windows and Multimedia functions.

Other functions: disable the windows keys, exchange WASD with cursors.

The keyboard is optimized for anti-ghost.

A kit with extractor and 8 orange colored buttons for night vision is also included.
