**DESCRIPTION**

The Speaker OvBoost HappyBeach is an IPX6 certified WaterProof portable speaker.  
Communication is Bluetooth 3.0.  
The unique design, the front controls for telephone calls, the built-in microphone, the practical hook to hang it and the special colors make this speaker an extremely sophisticated product.  
The battery supplied with 2300mAh provides energy for more than 8 hours of operation and a USB port makes PowerBank for every need and emergency.  
A speaker that can be used in the pool, on the beach or in the shower.
