DESCRIPTION

The CASA21 case is an ATX MiddleTower case supplied with an Alantik 500watt power supply with a 12cm fan and a SHUKO power cord.

The case has been designed by Cortek, the front is simple and essential, the controls and the outputs are all placed in the front part in the upper position and you can mount 2 fans of 12 cm frontally.

The structure is new and although designed for office use can accommodate video cards up to 320mm.

The interior of the case is painted in black.

The price of this case which is the lowest of all Alantik cases combined with the new design and structure make this the most desirable houses on the market.
