**CORTEK COPS31 300/450WATT POWER SUPPLY**

#### DESCRIPTION

COPS31 is the entry level power supply of the new Cortek 2018-2019 serie.

The combined power declared is of 300watt and in our laboratory tests has reached, with voltage within the parameters ATX, the combined power of 450watt. Although it is an economic power supply it also has a good performance showing 80% efficiency at 50% load (150watt).

It is therefore also suitable to drive video cards of certain power remaining within good consumption.

The cable includes: 20 + 4PIN, P4 + P4, 3xMolex, 3xSATA, 1xPCI-E 6 + 2.
