CORTEK AQUA KEYCAPS
CORTEK AQUA KEYCAPS

DESCRIPTION

This is a set of keycaps in MDA format.
They are the same keys mounted on the Cortek Aqua keyboard.
It is a very high quality product, the process is sublimation on the 5 sides of the button.
In the package we find 68 keys + 10 keys to adapt to larger keyboards.
The layout is ANSI, with US characters drawn above the keys and Italian characters on the front.
When paired with the Cortek Phantom Silent Switches, they offer particularly silent and extremely comfortable typing.
