CORTEK LIGHTSPEED SIMULATOR**

**DESCRIPTION**

Cortek Series 6 Driving Simulator with Reclinable Chair and Monitor Stand.  
It is composed of a very sturdy metal structure and an armchair. Made of steel material, it is compatible with all the main steering wheels on the market.  
It has various adjustments: seat (reclining and forward/backward), steering wheel plate (up/down and forward/backward), pedal support (forward/backward) and gear shift plate (mountable on the left or right).
