DESCRIPTION

The SIRIUS500 is one of the power supplies of the new Cortek 2018-2019 serie.

This is a completely modular power supply with 15 modular ports.

The combined power declared is 500watt and in our laboratory tests has reached, with voltage within the parameters ATX, the combined power of 750watt, thanks to a housing of 18.5cm and a fan of 14cm also.

The efficiency is excellent: 89% efficiency at 50% load (250watt).

It is therefore also suitable for driving high-end video cards while remaining within good consumption.

The cable includes: 20 + 4PIN, P4 + P4, 3xMOLEX, 4xSATA, 4x (PCI-E 6 + 2)

EXTERNAL PAINTING	Black
NET WEIGHT	1387gr (without cables)
HOUSING	18.5cm
COOLING FAN	14cm
MODULAR PORTS	15 : 1xMB28pin, 2xCPU8pin, 6xIDE/SATA, 6xPCI-E
INCLUDED CABLES	20+4PIN, P4+P4, 3MOLEX, 4SATA, 4x(PCI-E 6+2)
DECLARED POWER	500WATT
MAX VERIFIED POWER	750WATT
EFFICIENCY AT 50% (250WATT)	89%
