**FORCE RACING WHEEL
FORCE WHEEL**

DESCRIPTION

The FORCE racing wheel is the flagship racing wheel of the economical series of the FlashFire range.

FlashFire is the brand under which AsianGames, a Taiwanese company that produces gaming for third parties, distributes its products.

The robustness of the product and the quality of the materials are the first things you notice when you pick up this product, in particular the rubber-coated steering wheel

which ensures exceptional grip. Compatibility is ensured for Windows, PS3, PS4, Xbox One and Nintendo Switch. We also remember that the manufacturer is a Sony licensee.

The equipment is also completed by two robust and precise paddles and the integrated two-position gearbox.
